

Dear Lion's Heart Academy Team,

I hope you are well.

Thank you sincerely for considering me for a position as to be part of your organization and for your interest in the work I am doing with CareerLift. I am truly honoured by this recognition and the confidence you have shown in my abilities.

CareerLift is an important project and brand that I am currently developing with a clear long-term vision. Because of this, I need to ensure that any professional commitments I make will align with the growth, independence, and identity of the platform.

For that reason, I would like to explore a **collaboration or partnership model** between Lion's Heart Academy and CareerLift, rather than fully joining the organization's board at this stage. I believe this approach would allow us to support each other's missions while maintaining the integrity and strategic direction of both brands.

I'm open to work with Lion's heart academy with also keeping my brand careerlift.

I am open to discussing how we can work together in a way that benefits both organizations—whether through joint programs, shared initiatives, content partnerships, or advisory support.

Thank you once again for the opportunity. I value your vision and would be happy to schedule a meeting to explore a mutually beneficial path forward.

Warm regards,

**[Mariri, BM]**

Founder, CareerLift
